Lagos, Nigeria Open to Remote Opportunities

PROFESSIONAL SUMMARY

Results-driven Software Developer with extensive experience building scalable, high-performance applications and a polyglot technical foundation. Uniquely fluent in **over 12 programming languages**, enabling seamless adaptation to any tech stack, legacy system, or bleeding-edge architecture. Passionate about writing clean, maintainable code, optimizing cloud infrastructure, and delivering intuitive user experiences. Proven ability to bridge the gap between complex backend logic and sleek front-end interfaces.

TECHNICAL ARSENAL

- **Systems & Backend:** Go (Golang), Rust, C++, C#, Java
- **Web & Scripting:** JavaScript, TypeScript, Python, Ruby, PHP
- **Mobile:** Swift, Kotlin
- **Frameworks & Libraries:** React.js, Next.js, Vue.js, Node.js, Express, Django, FastAPI, Spring Boot, Ruby on Rails, .NET Core.
- **Infrastructure & Tools:** AWS, Docker, Kubernetes, CI/CD, PostgreSQL, MongoDB, Redis, GraphQL, Git.

PROFESSIONAL EXPERIENCE

Senior Software Developer

TechFlow Solutions | Remote • Jan 2023 – Present

- Architect and deploy distributed microservices using Go and Node.js, improving system fault tolerance and reducing API latency by 35%.

- Lead the migration of a legacy monolithic PHP application to a modern Next.js and TypeScript frontend, boosting SEO rankings and user retention by 22%.
- Leverage Python and Rust for data-intensive background processing, drastically reducing data compilation times from hours to minutes.
- Mentor junior developers in code quality, conducting weekly PR reviews and establishing automated CI/CD pipelines to ensure 90%+ test coverage.

Full Stack Developer

Innovate Digital • Aug 2020 – Dec 2022

- Developed comprehensive full-stack applications serving over 50,000 monthly active users utilizing the MERN stack.
- Integrated multiple third-party payment gateways (Stripe, Paystack) ensuring secure, zero-downtime financial transactions.
- Built native mobile applications for iOS and Android using Swift and Kotlin, maintaining feature parity across platforms.
- Optimized database queries in PostgreSQL, reducing load times for complex analytical dashboards by 40%.

FEATURED PROJECTS

Personal Developer Portfolio (Live Demo)

- **Stack:** Next.js, TypeScript, Tailwind CSS
- Designed and developed a modern, high-performance web portfolio to showcase technical projects and skills. Implemented seamless animations, responsive design principles, and optimized asset delivery.

Enterprise E-Commerce Engine

- **Stack:** Python (FastAPI), React, PostgreSQL, Docker
- Built a scalable backend engine for e-commerce platforms capable of handling high-volume concurrent transactions.

EDUCATION

Bachelor of Science in Computer Science

University of Lagos

- Core Coursework: Data Structures & Algorithms, System Design, Operating Systems, Database Management.
